

Airsoft club safety statement

At Airsoft Society, safety is put before everything else. All Irish Laws, rules set out by the university and site rules are stringently followed to ensure a fun and safe experience for all members. Below is a list of relevant laws and rules set out by the club, the university and the government.

- Eye protection is mandatory when playing a game of airsoft.
- Irish law states that all airsoft guns must be kept in bags in public areas.
- Maynooth Campus is a public space, however the University has asked us to not bring guns and bb grenades on campus. Other equipment is permitted.
- The Club recommends boots and shoes that provide ankle support for all airsoft games.
- Please Follow individual site rules

Other than that, have fun! Airsoft is an extremely unique sport and we hope you enjoy the experience!
